

## SAFETY DATA SHEET

---

### SECTION 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

---

**1.1 Product identifier**

Smörjfett EP00

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

Lubricating grease

**1.3 Details of the supplier of the safety data sheet**

|          |  |
|----------|--|
| Supplier | Agro Oil<br>Box 30192<br>104 25 Stockholm, Sweden<br>Telephone +46 (0)10-556 00 00<br>E-mail info@agrol.se |
|----------|--|

**1.4 Emergency telephone number**

In emergency situations, contact National Poisons Information Service

---

### SECTION 2. HAZARD IDENTIFICATION

---

**2.1 Classification of the substance or mixture**

The product does not meet the criteria for classification according to Regulation (EC) No 1272/2008 (CLP).

**2.2 Label elements**

No labelling required according to Regulation (EC) No 1272/2008 (CLP).

**Other labelling**

EUH210. Safety data sheet available on request.

**2.3 Other hazards**

Repeated exposure may cause skin dryness.

# Smörjfett EP00

28.02.2020

---

## SECTION 3. COMPOSITION/INFORMATION OM INGREDIENTS

---

### 3.2 Mixtures

#### Classification according to Regulation (EC) No 1272/2008 [CLP]

| Name              | EC no.    | CAS no.    | REACH reg no.    | % (w/w) | Hazard statements   |
|-------------------|-----------|------------|------------------|---------|---------------------|
| Dilithium azelate | 254-184-4 | 38900-29-7 | 01-2120119814-57 | < 2,5   | Acute Tox. 4 (H302) |

This product is a mineral oil based lithium grease with additive. The mineral oils in the product contain <3% DMSO extract (measured according to IP 346).

#### Other information

For a full text of hazard statements: see Section 16

---

## SECTION 4. FIRST AID MEASURES

---

### 4.1 Description of first aid measures

After inhalation: Fresh air and rest. If difficulties in breathing get medical advice.  
After eye contact: Rinse the eyes gently with water. If symptoms persist consult a doctor.  
After skin contact: Take off contaminated clothing. Wash skin with soap and water  
After ingestion: Rinse mouth and drink water. Do **not** induce vomiting. Contact a doctor if experiencing symptoms.

### 4.2 Most important symptoms and effects, both acute and delayed

Inhalation: Inhalation of mist may cause irritation, headache, nausea and difficulties in breathing.  
Eye: Not expected to cause eye irritation.  
Skin: Repeated and prolonged contact may cause redness and irritation.  
Ingestion: Small amounts are not expected to produce any acute or delayed symptoms. Large amounts may cause nausea and vomiting.

### 4.3 Indication of any immediate medical attention and special treatment needed

-

---

## SECTION 5. FIREFIGHTING MEASURES

---

### 5.1 Extinguishing media

Suitable extinguishing media: Can be extinguished using dry powder, foam or carbon dioxide.  
Unsuitable extinguishing media: Do not use direct water jet.

### 5.2 Special hazards arising from the substance or mixture

In case of fire, toxic and irritating gases may develop.

28.02.2020

## Smörjfett EP00

### 5.3 Advice for firefighters

Precautions according to the standard procedure for chemical fires. Use water **only** to cool down containers that are exposed to fire.

---

## SECTION 6. ACCIDENTAL RELEASE MEASURES

---

### 6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with eyes and skin. Spills are extremely slippery.

### 6.2 Environmental precautions

Do not allow discharge to enter sewers, watercourses or the ground.

### 6.3 Methods and material for containment and cleaning up

Contain/absorb spillages with suitable absorbent material such as sand or active clay.

### 6.4 Reference to other sections

See Section 8 for Exposure controls / personal protection and Section 13 for disposal considerations.

---

## SECTION 7. HANDLING AND STORAGE

---

### 7.1 Precautions for safe handling

Avoid prolonged or repeated contact with skin.  
Do not reuse soiled clothing unless laundered.  
Avoid inhalation of vapours, mist or fumes.  
Observe the risk of slipping at spillage.

### 7.2 Conditions for safe storage, including any incompatibilities

Keep containers tightly closed in a cool, well-ventilated place. Keep at a temperature not exceeding 45 °C. Keep out of reach of children.

### 7.3 Specific end use

See Section 1.

---

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

### 8.1 Control parameters

#### Exposure limits according to National regulations

Contains no substances with occupational exposure limits in the workplace. This information refers to Great Britain.<sup>1</sup> For other countries, refer to national legislation.

<sup>1</sup>For Great Britain see: Health and Safety Executive EH40/2005 Workplace exposure limits (third edition, published 2018). Published by the Health and Safety Executive. OELs for oil mist have been omitted from the published 2018 list.

28.02.2020

## Smörjfett EP00

### 8.2 Exposure controls

#### Appropriate technical measures

Ensure adequate ventilation. Methods are designed to prevent direct contact.

#### Personal protection

|                         |  |
|-------------------------|--|
| Respiratory protection: | Usually not needed. Use suitable respiratory protection in case of exposure to mist, spray or aerosol. |
| Eye/face protection:    | Wear eye protection (safety glasses with side shields or full face shield) when risk of eye contact.   |
| Skin protection:        | Wear protective gloves (nitrile) and protective clothing.  |

#### Environmental exposure control

Prevent discharges into drains.

---

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

---

### 9.1 Information on basic physical and chemical properties

|   |                                  |
|---|----------------------------------|
| Appearance:                                     | Semi-solid, smooth yellow grease |
| Odour:  | No information                   |
| Odour treshold:                                 | No information                   |
| pH:   | No information                   |
| Melting point / freezing point:                 | Not available                    |
| Initial boiling point and boiling range:        | Not applicable                   |
| Flash point:                                    | >150 °C (based on base oils)     |
| Evaporation rate:                               | Not applicable                   |
| Flammability (solid, gas):                      | No information                   |
| Upper / lower flammability or explosive limits: | No information                   |
| Vapour pressure:                                | Not applicable                   |
| Vapour density:                                 | Not applicable                   |
| Relative density:                               | <1000 kg/m <sup>3</sup> (25 °C)  |
| Solubility in water:                            | Insoluble                        |
| Solubility in organic solvents                  | No information                   |
| Partition coefficient, n-octano/water:          | Not available                    |
| Decomposition temperature:                      | Not available                    |
| Auto-ignition temperature:                      | Not available                    |
| Viscosity, kinematic:                           | Not available                    |
| Explosive properties:                           | No information                   |
| Oxidising properties:                           | Not applicable                   |

### 9.2 Other information

None.

---

## SECTION 10. STABILITY AND REACTIVITY

---

### 10.1 Reactivity

The product is not reactive under normal conditions.

28.02.2020

## Smörjfett EP00

### 10.2 Chemical stability

The product is stable under normal conditions.

### 10.3 Possibility of hazardous reactions

None known.

### 10.4 Conditions to avoid

Heat causes irritating vapours.

### 10.5 Incompatible materials

The product may react with strong oxidizing agents.

### 10.6 Hazardous decomposition products

No hazardous decomposition products known.

---

## SECTION 11. TOXIKOLOGICAL INFORMATION

---

### 11.1 Information on toxicological effects

#### Acute toxicity

Not considered to be acutely toxic.

|                   |  |
|-------------------|--|
| Dilithium azelate | LD <sub>50</sub> (oral): >300 mg/kg    |
|                   | LD <sub>50</sub> (dermal): >2000 mg/kg |

#### Corrosive / irritating on the skin

Repeated and prolonged contact may cause redness and irritation

#### Serious eye damage / irritation

Not expected to cause eye irritation.

#### Respiratory / skin sensitization

Not considered sensitizing.

#### Germ cell mutagenicity

It is considered not to cause mutations in germ cells.

#### Carcinogenicity

Not considered to be carcinogenic.

#### Toxic to reproduction

Not considered to be toxic to reproduction.

#### Specific organ toxicity-single exposure

Inhalation of mist may cause irritation, headache, nausea and difficulties in breathing.

#### Specific organ toxicity-repeated exposure

No information available.

#### Aspiration Hazard

Considered not to be an aspiration hazard.

---

## SECTION 12. ECOLOGICAL INFORMATION

---

The product is not classified as hazardous to the environment.

### 12.1 Toxicity

No data available.

### 12.2 Persistence and degradability

The product is not rapidly biodegradable.

### 12.3 Bioaccumulative potential

The product has low potential for bioaccumulation.

### 12.4 Mobility in soil

The product is insoluble in water and is not considered to be mobile in soil.

### 12.5 Results of PBT och vPvB assessment

Based on available information, this mixture contains no substance that meets the PBT or vPvB criteria according to Annex XIII to Regulation (EC) No. 1907/2006 (REACH).

### 12.6 Other adverse effects

None known.

---

## SECTION 13. DISPOSAL CONSIDERATIONS

---

### 13.1 Waste treatment methods

#### Product

Product residues, spills etc. are classified as hazardous waste. Disposal, transportation, storage and handling of the waste must be in accordance with national regulations. Product waste must not be allowed to contaminate soil or water, or released into the environment.

Suggested waste code (EWC): 13 08 99\*, Wastes not otherwise specified (oil)

#### Packaging

EWC-code: 15 01 02, Plastic packaging

EWC-code: 15 01 04, Metallic packaging

Packaging containing product residues that are not drip dry must be handled as hazardous waste and disposed of properly sealed.

EWC-code: 15 01 10, Packaging containing residues of or contaminated by hazardous substances.

---

## SECTION 14. TRANSPORT INFORMATION

---

The product is not covered by the regulations for the transport of dangerous goods.

---

## SECTION 15. REGULATORY INFORMATION

---

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

This safety data sheet is prepared in accordance with the EUROPEAN PARLIAMENT AND COUNCIL REGULATION (EC) No 1907/2006 of 18 December 2006 concerning the registration, evaluation, authorization and restriction of chemicals (REACH) and Commission Regulation (EU) No 2015/830 of 28 May 2015 amending the European Parliament and Council Regulation (EC) No 1907/2006 on the registration, evaluation, authorization and restriction of chemicals (REACH).

#### Regulations

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substance and mixtures (CLP).

Commission Regulation (EU) No 1357/2014 of 18 December 2014 replacing Annex III to Directive 2008/98/EC of the European Parliament and of the Council on waste.

### 15.2 Chemical safety assessment

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

---

## SECTION 16. OTHER INFORMATION

---

### Classification procedure

Test data is prioritized when classifying the product. When no test data are available the classification criteria in Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures (CLP) have been used.

### Hazard statements in Section 3

H302 Harmful if swallowed

### Abbreviations

|            |  |
|------------|--|
| BCF        | Bio Concentration Factor   |
| BOD5/COD   | Biological Oxygen Demand 5 days/Chemical Oxygen demand                                     |
| BOD (MITI) | Biological Oxygen Demand   |
| DNEL       | Derived No Effect Level  |
| EC50       | Effective Concentration (concentration that gives response in 50% of test subjects)        |
| ECHA       | European Chemical Agency   |
| EmS        | Emergency Schedule Information   |
| IARC       | International Agency for Research on Cancer  |
| IC50       | Inhibitory Concentration (concentration that shows inhibition in 50% of the test subjects) |
| LC50       | Lethal Concentration (concentration causing the death of 50% of a group of test animals)   |
| LD50       | Lethal Dose (dose causing the death of 50% of a group of test animals)                     |
| Log Pow    | Partition coefficient of octanol - water   |
| MITI       | Ministry of International Trade and Industry, Japan  |
| NOEC       | No Observed Effect Concentration   |
| NOAEC      | No Observed Adverse Effect Concentration   |
| NOAEL      | No Observed Adverse Effect Level   |
| OECD       | Organisation for Economic Co-operation and Development                                     |
| PBT        | Persistent Bio-accumulative and Toxic substance  |
| PNEC       | Predicted No Effect Concentration  |
| STEL       | Short Term Exposure Limit  |

## Smörjfett EP00
